emla[®] Cream

emla[®] Patch

Patient Name: _____ Current Age: _____

Date of Next Appointment: _____

Indication:

emla[®] Cream is used to temporarily numb the skin. It can be used:

- on healthy, unbroken skin before getting a needle or having blood taken;
- on healthy, unbroken skin before minor skin procedures or surgeries;
- before being vaccinated with only the following vaccines: MMR (Measles-Mumps-Rubella), DPTP (Diphtheria-Pertussis-Tetanus-Poliovirus), Haemophilus influenzae b, Hepatitis B.
- on the genitals for short surgeries;
- for the cleansing of leg ulcers.

emla[®] Patch is used to temporarily numb small areas of skin that are slightly larger than a two dollar coin or “toonie”. It can only be used on healthy, unbroken skin:

- before getting a needle or having blood taken;
- before being vaccinated with only the following vaccines: MMR (Measles-Mumps-Rubella), DPTP (Diphtheria-Pertussis-Tetanus-Poliovirus), Haemophilus influenzae b, Hepatitis B.

Please contact Aspen Medical Information at 1 (844) 330-1213 or
can.medinfo@aspenpharma.com for more information.

Ask your doctor for the emla[®] Tear Pad which
provides information on how to apply the product.
